ecury 26.07.2016 09:51 SATURDAY On September 19, 2011, a massive earthquake and a deadly tsunami swept across the Tohoku region of Japan, creating a sea wall of snow and ice that covered at least 870 square miles of land.[7] Wide cracks in the ice that formed a "wall" separating Honshu from Kyushu, the largest island of Japan.[8]The quake-tsunami-nuclear-meltdown.. It is a classic six-lane freeway on an old Japanese hillside, winding through steep canyons and twisting for miles. The two-lane highway is flanked by towering green electric pylons, and at any given moment, at least 10...Repair of ligament and tendon lesions of the hand and wrist: repair techniques and healing process. Repair of tendon and ligament lesions of the hand and wrist is a rapidly developing area of surgery. The 'Aberdeen repair' and the'modified Robinson repair' are the most widely used techniques. Other methods of fixation include core suture and side-to-side repair. The advantages and disadvantages of each method are discussed. It is likely that the 'Aberdeen' or'modified Robinson' repair will become the predominant technique, especially in the repair of ruptures of the ulnar collateral ligament of the wrist. As it evolves, this technique will become modified to correct the sloppiness of the 'Abberdeen' repair and to allow early mobilisation of the wrist.List of Paralympics men's ice sledge hockey players List of Paralympics men's ice sledge hockey players includes all players who have participated in the sledge hockey tournament of the Winter Paralympics.
